Calcium (Ca), Min ..... 23.5%  
Calcium (Ca), Max ..... 26.5%

Each bolus contains 44 grams of Calcium

**NET CONTENTS: 6 x 176 g (2.3 lb or 1.06 kg)**

**AgriLabs®**  
Making A Healthy Difference®

**DESCRIPTION:** An oral combination of calcium propionate, calcium chloride and calcium carbonate providing immediate and sustained release of calcium in blood serum. For use as a replacement calcium supplement in freshening dairy cows.

**INGREDIENTS:** Calcium chloride, calcium propionate, water and calcium carbonate. All ingredients are feed grade.

**DOSAGE and ADMINISTRATION:** Boluses are individually sealed to ensure stability. Remove plastic cover and place the rounded end toward the cow and administer the boluses by commercially available balling guns.

**Supportive treatment:** Orally administer to a dairy cow one 176g bolus prior to or immediately after calving and another 176g bolus at 6-12 hours after calving.

**Prevention:** one 176g bolus at 2-6 hours prior to calving and another 176g bolus at 6-12 hours after calving.

**PRECAUTIONS:** Store at 36-86°F. Open the sealed plastic covers just prior to use. Moisture affects the boluses.

**CAUTION:** Do not administer to cows lying down. Do not use for treating initial onset of hypocalcemia. Do not administer to aggressive animals or to animals without a normal swallowing reflex. Should choking occur, administer water to the cow in order to speed dissolution of the bolus. Broken boluses or boluses with sharp surface should not be administered. Please return for exchange.
